

Refurbishment service

In addition to routine maintenance and repairs we can offer a full refurbishment service.

We will attend the property and advise on where monies can be best spent to modernise or maximise the rental potential of the property.

This can include :

- Full/ part re-wire
- Replacement boiler or central heating system
- Redecoration
- New Kitchen
- New Bathroom
- Replacement floor coverings.

All works are project managed and are usually turned around within 3 weeks ensuring vacant periods are reduced, and an increase on income can start immediately.

For more details or advice and a quotation book an appointment.
