

A big thanks for using Wright Letting & Management.

We're always looking for ways in which we can help tenants and we'd like to let you know of our partnership with CreditLadder. CreditLadder is the UK's first and biggest rent reporting service and it has helped thousands of users improve their credit scores by reporting their on-time rental payments.

What is rent reporting?

Rent reporting allows your monthly rent payments to be reported to credit reference agencies. Your rent payments can help improve your credit score. CreditLadder reports rent payments to Experian, Equifax, TransUnion and Crediva. It is the only way to report rent to all four credit agencies in the UK. Keep paying rent as you do today. CreditLadder securely reads the rent payment from your bank account and lets the credit agencies know.

How can an improved credit score help?

Your credit score helps lenders decide how reliable you are and a stronger credit rating can make you more appealing. Benefits of an improved score include:

- More access to a wider range of loans, credit cards and mortgages.
- Access to more competitive interest rates.
